

LETTER TO THE EDITOR

To the Editor:

Congratulations on another excellent *Journal of Arboriculture* (May 2003). The issue focuses a major portion of the content on the social benefits of trees, which has been an area of research lacking in information for use by the profession. The research results represented are quite impressive. Thank you for this great service to those who strive to improve and enhance our quality of life through the planting and care of trees in urban areas.

Well done.
